

Dr. Snyder earned his Ph.D. from Duquesne University in Counselor Education and Supervision, with an emphasis in Crisis Intervention and Management, after completing his MA in Community Counseling, with an emphasis on addiction counseling and children & adolescent counseling. Dr. Snyder has been a Licensed Professional Counselor since 2003, gaining experience from diverse positions held within the mental and behavioral health field. He has worked in residential treatment facilities, therapeutic school classrooms, partial hospitalization programs, community hospitals, and the insurance arena counseling severely emotional and behaviorally challenged individuals; whose ages range from adolescent to adulthood.

Currently, Dr. Snyder serves as Walmart Health Virtual Care's TeleBehavioral Health Director. In this role he oversees the company's behavioral health offering, ensuring members receive the best possible clinical care. Licensed as a Professional Counselor, a National Board-Certified Counselor (NCC), a Board Certified Telemental Health Provider (BC-TMH), a Certified Clinical Trauma Professional, a Certified Anger management Specialist II, and an Approved Clinical Supervisor (ACS); he remains an active member of relevant professional organizations within the field to maintain awareness of the most current research and treatment protocols.

While he specialized in counselor education, crisis prevention and intervention, and children/youth counseling; he also has diverse experience providing individual, group, family, and crisis counseling and treatment planning in multiple settings with different populations. In addition to his role at Walmart Health Virtual Care, Dr. Snyder serves as a full time Assistant Clinical Professor at Northern Arizona University and as the Clinical Development Director for Crisis Preparation and Recovery Inc.
