2025 Validation Report

Review for: US-Rx Care
Validation Achieved: Savings
Valid through: July 2025

Company Profile

Category:	Pharmacy Benefit Management
Website:	https://usrxcare.com/
Public or Private:	Private
Year Established:	2007
CEO:	Renzo Luzzatti
Company contact:	800-608-2990

Description Provided by the Company:

US-RX Care delivers Pharmacy Benefit Risk Management unlike any other service offered by pharmacy benefit managers (PBMs) of any kind, anywhere in the US.

US-RX Care provides fiduciary pharmacy risk management to self-insured employers with a singular focus on balancing cost and quality care in the best interest of plan sponsors and their plan participants.

US-RX Care is obsessed with service and quality of care - with no financial conflict of interest, no hidden profits and unrestricted transparency.

Claim Assertion for Validation

US-Rx Care per member per month cost for pharmacy services was lower than the traditional Pharmacy Benefit Manager costs.

Method / Calculation / Examples

The analysis focused on a single employer whose plan covered approximately 1,400 people. The number of people covered was stable for the time periods analyzed.

All pharmacy costs for the time periods were included in the total. No outlier or catastrophic claims were excluded. No drugs were excluded. Pharmacy costs for the US-Rx Care period reflect rebates. The gross (total) rebates for the both periods were provided.

Total pharmacy costs were divided by the estimated member months for the time period of September 2019 through August 2020, before US-Rx Care was serving the group. Using the same approach, the PMPM costs were calculated for January 2021 through December 2021, after US-Rx Care had begun. The two rates were then compared.

Findings & Validation

Table 1 summarizes the pharmacy costs, estimated member months, and per member per month costs. US-RX Care’s per member per month costs were 35% lower.

	Pre US-Rx Care	US Rx Care
Total Costs *	\$2,747,648.38	\$1,779,507.01
Rebates	(\$550,384)	(\$148,437)
Member Months	16,800	16,867
PMPM	\$130.79	\$96.70

Table 1 Summary of Pre- and Post- PMPM Costs

* Ingredient cost plus dispensing fee

** Prior carrier / PBM rebates were applied per member per month inclusive of medical services offsets

Pre US-Rx Care reflects September 2019 to August 2020 pharmacy claims

Post US-Rx Care reflects January 2021 to December 2021 pharmacy claims

Validation and Credibility Guarantee

US-Rx Care's Fiduciary Pharmacy Risk Management Services achieved validation for **Savings**. Validation Institute is willing to provide up to a \$50,000 guarantee as part of their Credibility Guarantee Program. To learn more, visit <https://validationinstitute.com/credibility-guarantee/>.

Program Validation

Program has strong evidence of significant impact on both patient outcomes and on medical costs. Evidence is assessed based upon the certainty it provides that the result is due to the program and not to other factors, such as recruiting people to participate in the program who are most likely to succeed.

Savings

Can reduce health care spending per case/participant or for the plan/purchaser overall.

Outcomes

Product/solution has measurably improved an outcome (risk, hba1c, events, employee retention, etc.) of importance.

Validation Expiration: July 2025

CERTIFICATE OF VALIDATION

Applicant: **US-Rx Care**
4600 Sheridan Street, Ste. 200, Hollywood, Florida
33021, USA

Product: Fiduciary Pharmacy Risk Management Services

Claim: US-Rx Care's Fiduciary Pharmacy Risk Management Services can significantly reduce self-insured employer pharmacy benefit spend compared to the Traditional Pharmacy Benefit managers.

Validation Achieved: **Validated for Savings**

Validation Award Date: September 2022

About Validation Institute

Validation Institute is a professional community that advocates for organizations and approaches that deliver better health value - stronger health outcomes at lower cost. We connect, train, and certify health care purchasers, and we validate and connect providers delivering superior results. Founded in 2014, the mission of the organization has consistently been to help provide transparency to buyers of health care.

Validation Review Process

Validation Institute has a team of epidemiologists and statisticians who review each program. The team focuses on three components:

- Evidence from published literature that a similar intervention had similar results.
- The reliability and credibility of the data sources.
- The rigor of the approach to calculating results.

To achieve validation, the program has to satisfy each of these components. VI's team then summarizes the review into a report which is publicly available. Details of VI's review are available with the program's permission.
