2021 Validation Report

Review for: Curant Health

Validation Achieved: Level 2 - Outcomes

Valid through October 2022

Company Profile

Category:	Disease Management
Website:	https://curanthealth.com/
Public or Private:	Private for profit
Year Established:	2000
CEO:	Patrick Dunham
Company contact:	Kyle Wagner; kwagner@curanthealth.com

Description:

Curant Health is a Medication Care Management® (MCM) organization headquartered in Atlanta, Georgia. **Curant Health's** comprehensive product offering inclusive of Advisory, Engagement & Evidence solutions has been validated in numerous clinical trials to improve the lives of complex care, poly-chronic patients nationwide while reducing their overall healthcare spend. Specially trained pharmacists, nurses and patient care coordinators are the foundation of the innovative program. Consistent, dedicated interaction with licensed **Curant Health** clinicians supports the quality of life of employees who have chronic conditions.

Claim Assertion for Validation

In one year, **Curant Health** reduced total healthcare spending for 232 members who had multiple chronic conditions by 28% which amounted to \$1,422,462.80 in savings.

Method / Calculation / Examples

Medical and pharmacy claims spending for the 232 enrolled members was aggregated for each year analyzed. The total amount for medical and pharmacy spending was then divided by the number of members and the number of months to create a per member per month cost reduction of \$511. The time period covered a pre-intervention period of August 2015 through July 2016, and a post-intervention period of August 2016 through July 2017.

Findings & Validation

Table 1 summarizes the pharmacy and medical costs for the 232 enrolled members. Graph 1 shows the number of members (frequency) at various 12-month spending levels (dollars on the horizontal axis). The graph shows that the number of members at the higher dollar levels (>\$13,000, the median during the pre-intervention period) decreased from the pre to the post intervention period.

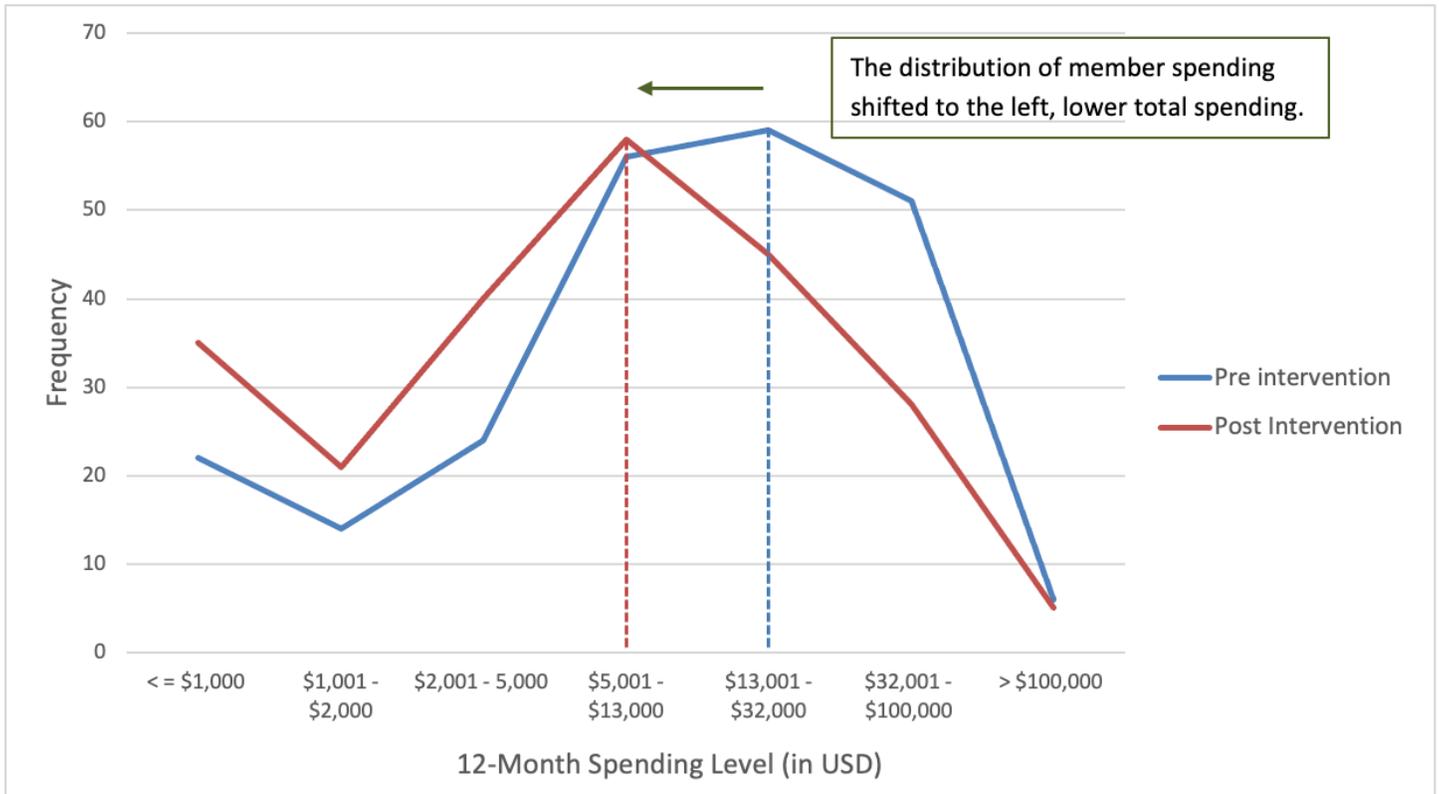

Table 1: Pharmacy and Medical Costs for the 232 Enrolled Members

	Aug 2015 – Jul 2016 / pre-intervention	Aug 2016 – Jul 2017 / post-intervention	% change
Pharmacy	\$494	\$566	14.6%
Medical	\$1,351	\$768	-43.2%
Total	\$1,845	\$1,344	-27.7%

Graph 1: Number of Members (Frequency) at Various 12-Month Spending Levels

Limitations

Since the members selected for enrollment were poly-chronic, complex care patients they had higher than average health spend. The analysis does not address how much of the cost reduction would have occurred without the intervention and it is possible that a certain portion of members who have higher than average costs in one year could have lower costs in the following.

Although, the mean non-enrolled member data was not available to confidently estimate the natural flow of high to low costs **Curant Health** has a prospective test & control study currently underway that is powered for statistical significance.

This at-risk, outcomes-based partnership is with a nationally renowned organization. The focus is reduction of total health spend and improvement of patient reported outcomes. Curant Health will provide the Validation Institute with a data readout when available. We will provide this additional total cost of care validation to our members upon receipt later this year.

Validation and Credibility Guarantee

Curant Health's Medication Care Management® has achieved a level 2 – Outcomes validation. Validation Institute is willing to provide up to a \$25,000 guarantee as part of their Credibility Guarantee Program. To learn more, visit <https://validationinstitute.com/credibility-guarantee/>.

Level 1 – Savings

Can reduce health care spending per case/participant or for the plan/purchaser overall.

Level 2 – Outcomes

Product/solution has measurably moved the needle on an outcome (risk, hba1c, events, employee retention, etc.) of importance.

Level 3 – Metrics

Credible sources and valid assumptions create a reasonable estimate of a program's impact.

Level 4 - Contractual Integrity

No outcomes or savings has been shown, but vendor is willing to put a part of their fees "at risk" as a guarantee.

Validation Expiration: October 2022

CERTIFICATE OF VALIDATION

Applicant:

Curant Health

200 Technology Ct SE suite b
Smyrna, GA 30082

Product:

Medication Care Management®

Claim:

Employees who receive Curant Health's Medication Care Management® solutions will have a significant decrease in total healthcare spend.

Validation Achieved:

Level 2 - Validated for Outcomes

Validation Award Date:

October 2021
