

Anthony Domanico is a Director in the Strategic Advisory Services Division at VMG Health in the Minneapolis office with over 15 years of experience in healthcare management and consulting. Anthony's practice has a national focus on physician enterprise strategy and compensation design for both employed and non-employed physicians and advanced practice providers (APPs) within the healthcare services industry. Through this practice, Anthony has helped numerous organizations design innovative, forward-thinking compensation plans that align provider and organizational goals and move the industry from volume to value-based care. Clients include for-profit and not-for-profit health systems, academic medical centers, and other publicly owned and privately held healthcare entities.

A frequent author and speaker, Anthony is a regular contributor and speaker to organizations such as MGMA, HFMA, HCCA, and the American Association of Provider Compensation Professionals (AAPCP), and he is also designated as a Certified Valuation Analyst (CVA) through the National Association of Certified Valuators and Analysts (NACVA).
