Lisa Comerose RN, BSN, MBA
Vice President, National Clinic Management Consulting
Marsh McLennan Agency LLC

Lisa Comerose is a seasoned healthcare professional with over 30 years of experience in the industry. As the leader of a team of clinical consultant professionals at Marsh McLennan Agency, Lisa is dedicated to supporting clients and internal partners in driving strategic focus to reduce healthcare costs and improve healthcare outcomes for employees of middle-market companies.

Throughout her career, Lisa has excelled in various roles, including providing patient care, consulting, account management, and product/program development with national carriers in both local and national markets. Prior to her current position, she served as the Director of Clinical Programs and Account Management Executive Elevance-Anthem BCBS, where she provided valuable clinical insights to national accounts.

Lisa's educational background includes a Bachelor of Science in Nursing from Old Dominion University and a Master's degree in Business Administration from Averett University. She is also a registered nurse in Virginia and has actively contributed to the healthcare community as a previous board member of the American Diabetes Association and Juvenile Diabetes Research Foundation (JDRF). In her role as Procurement Chair, Lisa played a key role in coordinating an annual fundraising event that successfully raised nearly $1 million dollars for diabetes research. With her extensive experience, expertise, and dedication to improving healthcare outcomes, Lisa Comerose is a valuable asset in driving strategic initiatives and delivering positive results for Marsh McLennan Agency and its clients.
