

**Laura Jester, PharmD, CSP, Vice President  
Clinical Services**

Laura Jester is a healthcare and business executive with a passion for patient care and clinical excellence. She specializes in clinical strategy, healthcare innovation, and business relationships. In her current role, Laura leads clinical services including population health, innovative pharmacy programs, medical pharmacy, and Navitus' clinical engagement center solutions for all lines of business.

In Laura's 10+ years of specialty and clinical experience, she has led strategic planning, operations, people development, and performance benchmarking. She combines her passion for patient care and creating value through participation in quality initiatives, metrics development, and supporting educational opportunities through her work with the Pharmacy Quality Alliance and the National Association of Specialty Pharmacy.

Laura received her Bachelor of Science in biological sciences degree from the University of Nebraska — Lincoln and her Doctor of Pharmacy degree from the University of Wisconsin — Madison, School of Pharmacy. She is licensed in two states and holds a Certified Specialty Pharmacist credential.
